Informal ACSI Army Reaction to S/COM Contributions to the NIS
Program.

25X1A9a

As information, [REDACTED] learned from the Army ACSI coordinator for NIS Section 38, Telecommunications, in the Pentagon that a member of OBI has sounded him out recently on whether S/COM's published basic reports on USSR (RR-138), Communist China (RR-135), and East Germany (RR-139) were duplications of NIS Section 38, which is prepared by the United States Army Signal Intelligence Agency (USASIA). [REDACTED] was told by the ACSI informer that the latter's reaction was that some duplication did exist but that the economic treatment given justified that duplication.
